

Prerequisite

IBM Cloud Service

Date	01 November 2022
Team ID	PNT2022TMID17286
Project Name	Project – IOT Based Real – time River Water Quality Monitoring and Control System
Maximum Marks	4 Marks

IBM Account Dashboard

The screenshot displays the IBM Cloud Account Dashboard in a web browser. The browser's address bar shows 'cloud.ibm.com'. The dashboard header includes the 'IBM Cloud' logo, a search bar, and navigation links for 'Catalog', 'Manage', and the user's name 'Muhammed Mithilaj's A...'. The main content area is titled 'Dashboard' and features a 'Create resource' button. Below this, a 'For you' section presents several quickstart options: 'Build' (Explore IBM Cloud with this selection of easy starter tutorials and services), 'Set up your IBM Cloud account' (Learn how to set up your IBM Cloud account, manage your account settings, organize resources, and control access to those resources), 'Get Started with Watson Studio' (Get started with using AI and Cloud Object Storage in 15 minutes), 'Build a web app with Watson Speech to Text' (Deploy a conversational interface compatible with any application, device, or channel), 'Create an OpenShift cluster' (Deploy apps on highly available clusters with Red Hat OpenShift on IBM Cloud), and 'Build a data lake' (Create a data lake using Object Storage and query it in its native format with SQL Query and Watson Studio). Each option includes a 'Getting started' button and a time estimate. The bottom section contains four tiles: 'News' (All About IBM Storage's Price and Supply Guarantee, IBM Tech Now: November 7, 2022, Unified Key Orchestrator Now Supports Easy Multicloud Key Management for Google KMS, TrustRadius Best Software: Five IBM Offerings), 'Recent support cases', 'Planned maintenance', and 'IBM Cloud status' (View all). A world map is visible in the bottom right corner.
